Premiums and discounts on long-term debt are amortized using the straight-line method over the life of the related bonds which approximates the effective interest method.

Under the terms of the bond indentures, the System is required to maintain certain deposits with a trustee. Such deposits are included with assets limited as to use in the accompanying combined balance sheets. The bond indentures also place limits on the incurrence of additional borrowings and require that the System satisfy certain measures of financial performance as long as the bonds are outstanding. Additionally, the bond indentures are secured by gross receipts of the System, CH, and SJH.

Scheduled principal repayments on long-term debt (excluding finance lease liabilities) for the next five years are as follows:

Year Ending June 30	<u>Amount</u>	
2025	\$ 8,215,000	
2026	27,158,000	
2027	9,710,000

Thereafter	273,500,000	
Total	\$ 338,713,000	

#### 7. Leases

The System has operating and finance leases for buildings and equipment. The System determines if an arrangement is a lease at the inception of a contract. Leases with an initial term of twelve months or less are not recorded on the combined balance sheets. The System has lease agreements which require payments for lease and nonlease components and has elected to account for these as a single lease component.
